

Assignment 1

Question no 2:

```
Import java.util.Scanner;
```

```
Class Students{
```

```
int roll;
```

```
String name;
```

```
float marks;
```

```
Void display(){
```

```
Scanner sc= new Scanner(System.in);
```

```
roll= sc.nextInt();
```

```
name= sc.nextLine();
```

```
marks= sc.nextFloat();
```

```
System.out.println("Roll.No:"+roll+"\nname:"+name+"\nmarks:"+marks);
```

```
}
```

```
Public class Main{
```

```
Public static void main(string[] args){
```

```
Students obj=new Students();
```

```
Obj.display();
```

```
}
```

```
}
```
